

Hello,

RE: Recycling Program Information

If you have a way to communicate the following to your township residents, please do so:

Recycling Cart Repairs

Beginning next week, Winona County Environmental Services staff may be in your area systematically replacing recycling cart parts. Some of our carts have been in circulation for over 10 years and are in need of new parts, such as wheels or lids, to extend their life. For our residents' carts to be examined they must be put out on their collection day and remain set out for most of that day. We anticipate that this will be on going for the next several months. We appreciate your patience, collaboration, and eagerness to recycle.

If anyone has a damaged or broken cart, they can call the Environmental Services office directly at 507-457-6462. By notifying us we may be able to service them faster. **There is no cost or fee associated to the property owner for fixes or replacements made to recycling carts.**

Collection Announcements Line

For weather-related and holiday recycling collection delays, the county has created a call-in line for service disruption inquiries. Call 507-457-6569 and listen to an automated message informing them of delays or postponements in recycling services. The message will let you know which areas are affected, and when to put their cart out.

Social Media Pages

Did you know Winona County Environmental Services is on Facebook and Instagram? Follow us for recycling tips, tricks, and up-to-the-minute information. Scan the QR below for direct program links.

Please do not hesitate to reach out with any questions or concerns.

Sincerely,

Kacey Reynolds
Environmental Planner
